Participants Needed!

Auditory Brainstem Response task with EEG

In this experiment, we will present sounds that we believe are processed in the brainstem and use EEG to study the signal they generate.

Email m.hnazaee@ucl.ac.uk with your name, email address and contact number to take part.
About the study

Who can take part?

We're looking for volunteers who fit the following criteria:

- If you are diagnosed with epilepsy.
- If you are diagnosed with diabetes.
- If you have significant skin allergies to metal or cosmetics.
- If you have had surgery involving your head.
- If you have implanted electrical devices (cochlear implant, heart pacemaker, DBS).
- If you suffer from claustrophobia.

What can you expect?

Brain Imaging

We will place electrodes on your head using an EEG cap. You will be asked to sit for up to 90 minutes while your brain activity is being recorded. Depending on the exact task, and including breaks, your visit to the Centre may take about 2-3 hours.

Reimbursement

To cover your travel and meal expenses, you will receive £10 for every hour or part of an hour spent in the department.

Contact m.hnazaee@ucl.ac.uk with your name, email address and contact number to take part.
