

Participants Needed!

Hippocampal subfields and episodic amnesia

This research is investigating how the brain allows us to recall the past, to be able to do more to help people who have difficulties with memory.

Email t.d.miller@ucl.ac.uk with your name, email address and contact number to take part.

About the study

Who can take part?

We're looking for volunteers who fit the following criteria:

- Medically healthy, including, no history of psychiatric or neurological disorders, no previous head injuries and no diabetes
- Aged between 40 and 60 years
- Have excellent written and spoken English
- Have normal hearing
- Have normal, or corrected to normal, vision
- Have no metal in your body, including no pacemakers, metal plates, rods etc.
- Have no tattoos, or if you have a tattoo, it is more than 6 weeks old, falls below the line defined by the crease of your elbows, and is not on your genitals. If your tattoo fits these criteria, you must not suffer from thermoregulatory problems, skin insensitivity and must be able to squeeze a soft ball
- Have not worked in a job with significant exposure to metal
- Do not have a copper inter-uterine device (copper coil)
- Are not pregnant

Contact t.d.miller@ucl.ac.uk with your name, email address and contact number to take part.

About the study

What can you expect?

Brain Imaging

Participants will undergo a functional MRI scan to look at the brain whilst retrieving memories and an anatomical scan. This is about 1.25 hours in total

Reimbursement

You will be paid £10 per hour when in the centre

Contact t.d.miller@ucl.ac.uk with your name, email address and contact number to take part.
